for a true story of tragedy and triumph.

## **Jared Estes: FIRE BACK**

Wednesday, September 11, 2024

1:30-2:30 p.m.

Staley School of Leadership Town Hall

Jared Estes defied medical odds to survive a fiery car crash caused by a drunk driver in 2005. The crash took the life of his beautiful young wife and put him on a grueling path that would either make or break him. Despite enduring an incredible loss and the pain of more than 50 surgeries, Jared chose to live and to FIRE BACK.

Jared's emotionally gripping presentation shines a light on the battles we all face, and reminds us to use the weapons inside ourselves to fight our way back to brighter days.

**As a health-promoting university, Kansas State University is committed to prioritizing the physical, mental and emotional health of our campus.**
